

AERODYNE CASE STUDY

CLIENT: KBT

SECTOR: Logistics/Haulage

VEHICLE TYPE/S: 3.5t curtainsiders

RESULTS:

KBT recently bought two Sprinters with curtainsided bodies. One vehicle was fitted with Aerodyne's 3D Cab Top Fairing and Sidewings, and the other was left plain. The plain vehicle is achieving 19mpg but the streamlined vehicle is doing 24mpg, representing a fuel saving of around 20% using Aerodyne's Kit. Both Sprinters were bought on the same day and do the same work, delivering laminated products over long distances around the UK. (The vehicles are identical).

Vehicle Type	MPG Before	MPG After	Fuel Saving (%)
3 ½t Sprinter Van	19.0	24.0	20.0%
